

Noah and Sons (Genesis - The Bible Study Book 2)

When Noah began constructing the Ark nobody knows what people thought or said to him. It must have seemed strange because it never rained in Noah's world; that means no floods. Noah advertised that God was going to destroy the world with a catastrophic flood. It took him and his three sons one hundred and twenty years to complete the ship; fortunately people lived longer in those times because of the pristine and healthy environment. The problem was humanity; the people were wicked, violent and corrupt. Even though a major flood warning alarm rang loud and long the people were unbelieving and indifferent to God; only eight persons survived the Great Flood. Look life carries on as normal and that guy Noah has worked on that Ark for well, I can't remember when he started, but it seems like a hundred years already. Gosh how does he afford it? Anyway, I am getting married next year and then we plan to move to the opposite side of the continent so I probably won't get to see him finish the boat; but it's impressive; no doubt about that. Oh look, I can't believe God will send a flood; besides God hasn't communicated with humans since Adam's time.
