

## 50 Model Rocket Projects for the Evil Genius

The fun, hands-on way to learn about rocket science. Yes, as a matter of fact, is IS rocket science! And because this book is written for the popular Evil Genius format, it means you can learn about this fascinating and growing hobby while having fun creating 50 great projects. You will find a detailed list of materials, sources for parts, schematics, and lots of clear, well-illustrated instructions. Projects include a camera rocket, video camera rocket, hydrogen-fueled rocket, UFO, and more. Projects start out basic and gradually become more sophisticated. Perfect for science fairs and school projects.
