

The Choirmaster

When Matthew auditions the waiflike Loveday for his prestigious choir, he does not realise that his controlled and ordered life is about to be turned upside down. In rescuing her from a chaotic lifestyle and brutal boyfriend, he also rescues himself from a future of repressed emotions and meaningless liaisons. Loveday uncovers his secret desires, and, rather than recoiling, she embraces them without reservation. Matthew, at last, can be master of more than his choir.
