

Lust Fever 3 (Bare Pleasures)

I want to make it happen on my first time, Sir. A trip to a party island for Spring Break turns hot for Annie and her friends when one of their number is infected with Lust Fever. Annie has never had sex in her life. She certainly hasn't had sex with another woman and certainly not with multiple men and women at the same time. But Lust Fever doesn't care about inhibitions or restrictions. It doesn't mind if hot-bodied co-eds rut for hours and hours. All Lust Fever wants is to reproduce even if it uses people to do it. Soon, the entire island is taken over by the delicious affliction. Men become primal, horse-hung, virile studs made to mate for days. Women are aroused, needy, aching, fertile sexpots, desperate to be owned by the strong, hunky men that the virus turns out. If Annie wants to keep her innocence intact, she'll have to be crafty indeed but that's only if she doesn't catch Lust Fever. Because Lust Fever destroys the innocence of even the most uneducated young women and there's no cure.
