

Acing Civil Procedure: A Checklist Approach to Solving Procedural Problems (Acing Law School)

Moving beyond the outline format used by most students, this book uses a checklist format to lead students through the questions they need to ask and answer to fully analyze the legal questions they are trying to resolve. It assembles the different issues, presenting a clear guide to procedural analysis that students can draw upon when writing their exams. Other study aids provide sample problems, but this book offers a systematic approach to problem solving.
