

RoboHelp 9 HTML Essential Training

In RoboHelp 9 HTML Essential Training, author David Rivers demonstrates the core features of RoboHelp 9, the industry-standard authoring tool for creating help systems for desktop or web-based applications. The course shows how to work with RoboHelp pods, save custom workspaces, create new projects, and leverage existing content in other formats, such as Word and PDF documents. It also includes tutorials on merging projects, topic formatting, using graphics and multimedia, and using forms and frames. Exercise files are included with the course. Macintosh Requirements OS 10.3.9 or higher DVD-ROM drive 1024x768 resolution 24-bit video support Quicktime 7 or higher Windows Requirements XP, Vista, Windows 7 DVD-ROM drive 1024x768 resolution 24-bit video support PC sound card/speakers Quicktime 7 or higher (included) .NET 2.0 or higher (included)
