

The ColdFusion 4.0 Web Application Construction Kit

An all-in-one kit that provides you with everything you need to create Web-based applications using the latest version of Allaire Corporations ColdFusion. From the basics of application design to session state management, from database fundamentals to real-time credit card verification and authorization, from dynamic SQL generation to Java enhanced forms, this book contains everything you need to get up and running in record time. Included on the CD-ROM are evaluation versions of ColdFusion and ColdFusion Studio, complete source code listings, sample applications, and add-on applications and utilities. -This 3rd edition of this highly successful book has been updated to cover recent enhancements to both the ColdFusion Application Server and the ColdFusion Studio development environment. -For coverage of advanced ColdFusion see our other ColdFusion book, Advanced ColdFusion 4 Application Development, ISBN 0789718103.
