

Alicia: Mistress Mommy Book One

(By Carolyn Faulkner writing as Abby Collier.) Alicia was just a poor university student, and was feeling quite silly that she didnt sign up earlier for student housing like she was supposed to. Now she had only weeks to secure a place to live, and was bold enough to call a very non-descript ad in the newspaper: Person to stay at my home. Own room. Special circumstances for the right person. Soon after knocking on the door of the Victorian mansion the ad led her to, she realizes special circumstances is an understatement. She must resign herself to be the ward of Mistress Mommy, who will make her start off like a baby--diaperings, public chastisements, and naptimes. Can she resort herself to these circumstances (Or will it be resorting at all?), will Alicia find that shes the right person for this arrangement that has open her eyes to curiosities and desires she hadnt realized shes always had. Note: This story contains lots of femdom age-play, which is consensual and adult in both parties, but includes spanking and anal-play. If such material offends you, please dont buy this book.
