

War (The Afterlife Series Book 5)

From the 2013 John W. Campbell Award Winner and Two Time Parsec Award Winner Praise for the Afterlife Series Its like a Unifying Theory for all religions and mythologies, binding together diverse cosmologies into a coherent, end-of-the-world tale in which the deepest human values may not be enough to save us. Full of surprises and pointed observations about human behaviour. ~Minister Faust, author of From the Notebook of Dr. Brain and The Alchemists of Kush Lafferty is a funny writer, with a clear obsession for afterlife mythos and an admirable hand at drawing likable characters... one of the most promising writers... Its great to see her turning out such good work already! ~BoingBoing.com (Cory Doctorow) The popular Afterlife Series continues with the end of Kate and Daniels long journey! The time has come to free the captured gods of this new world and to save Heaven and Earth from the forces of Chaos. Kate and Daniel know they have a big mess to clean up, and hope that their secrets never come out. But their companions are gods, and possess powers that may allow them to learn how much of the troubles of the world were caused by Kate and Daniel themselves. Nominated for the 2011 Parsec Award for Best Novella Podcast
