

IEC 60169-24 Ed. 1.0 b:1991, Radio-frequency connectors - Part 24: Radio-frequency coaxial connectors with screw coupling, typically for use in 75 ohm cable distribution systems (Type F)

Specifies radio-frequency coaxial connectors which are typically for use in 75 ohm cable distribution systems with a variety of flexible cable, but which may also be used in both matched and unmatched applications. This title may contain less than 24 pages of technical content.
