

Teen Love: A Journal on Relationships

Teen Love : On Relationships offered teens a chance to read about love and relationships written from their perspective, with sensitivity to their needs and respect for their experiences and feelings. The Journal on Relationships picks up where its predecessor left off, giving teens a safe place to disclose their feelings and discover ways to handle all the new feelings love and relationships bring. Wherever teens find themselves in the complexities of love and relationships, this book will help them sort through their feelings in effective ways, offering wisdom, support and compassion on every page. Designed to be a journal/companion piece to Teen Love : On Relationships, this latest offering from Kimberly Kirberger and The Real Worlds Colin Mortensen gives teens plenty of space to write about their own feelings on and experiences with love and relationships. Theyll find exercises to help them work through their problems and difficulties, and original contributions from other teens, whose expression of their innermost feelings will help readers acknowledge, understand and validate their own. It also has space for family, friends and loved ones to share their feelings and advice. With all it has to offer, once completed with their own feedback, this book will become an invaluable guide and keepsake for all teens.

Teens and the adults who love and care about them will all agree that this book is a must!
