

Web Databases With Cold Fusion 3

This book/CD-ROM resource covers Cold Fusion, a tool from the Allaire Corporation, that allows users to connect PC database products - Access, dBase, FoxPro, Paradox, Oracle and SQL Server, as well as Excel spreadsheets - to the Web. It features a step-by-step 14-day plan that shows how to get a current database on the Web. The CD-ROM includes a fully developed Intranet system that allows users to adapt current database programs for the Internet.
