

Automotive Collision Repair Video 4: Metal Straightening Fundamentals

Well-known automotive author and videographer James E. Duffy now brings his talents to Automotive Collision Repair with a new series of tapes for beginning level students. Packed with live action and animation, each tape focuses on the basic concepts and brings them to life for the student. The series includes a basic safety tape and safety is stressed throughout. Mr. Duffy has scoured the market for excellent footage from OEMs and aftermarket manufacturers and includes this to give the tapes a modern, up-to-the-minute look and feel. With many years experience creating instructional videos, Duffy knows how to create tapes that students will be able to understand and learn from, he also knows how to keep the student interested. Lively, educational and modern -- this new series will become a required part of instruction for automotive collision courses!
