

Community of Faith

Chief Rabbi Emeritus Lord Jonathan Sacks evaluates the role of the synagogue in Jewish life today. In it he explores the choices faced by religious leadership in the modern world, and the ways in which the synagogue embodies a living community of faith. His book *Faith in the Future*, described by *The Times* as one of the most significant declarations made by a religious leader in this country for many years, analysed the importance of community, morality and faith in the future of Western societies. *Community of Faith* applies these themes to the Jewish situation, and suggests ways in which the synagogue can be renewed as a centre of meaning and belonging.
