

Creating The 100 MPH Hitter

Use the same system that Coach Ryan used to help over one hundred players become 90mph athletes, and eleven players become 100mph athletes, and others become drafted into professional baseball. In this book, Coach Ryan covers 9 secret concepts that help create his power hitting formula. Coach Ryan also simplifies hitting mechanics, and timing for any player, coach or parent to understand. This book is a tremendous blend of old school concepts blended together with new school technology. If that is not enough Coach Ryan also explains in detail how mindset and strategy can make a huge difference in hitting development.
