

## The Village (Harbingers) (Volume 12)

The team arrives in Newland, North Carolina, confused, uncertain, and emotionally wounded. Expecting the kind of warm greeting that is legendary in southern towns, they find instead a village whose people want nothing more than to force the tourists to move on, something our team refuses to do. Then, in a blink of an eye, a painful transition takes place. Everything changes and not for the good. Newland has become New Land, a place similar to the one where they had just spent the night. Sadly, similar isn't enough. With the help of someone they remember as a lost little girl, they undertake the most challenging mystery they've ever faced. They must succeed; the lives of scores of people as well as their own depend on the solving of a problem they barely understand. The clock is running out for them and it is running fast.
