

TUTORING THE MAID: Victorian Submissive Maid

It is 1875 and Marigold has been released from service following an indiscretion with her employers son. Finding another position is going to be extremely difficult for the young girl, unless shes willing to learn new skills and prove her new abilities. Lord and Lady Marksman are looking for someone just like her. A poor and innocent girl who has little option but to do as her employers ask. Slowly, with proper coaching and tuition, the lord and lady watch Marigold slowly embrace her new life, culminating in an orgy in which they and all the rest of the staff enjoy Marigold. With each chapter, Marigold proves her willingness to learn about her own sexuality, as well as those around her.
