

Data Access in the ASP.NET 2.0 Framework LiveLessons (Video Training)

4+ Hours of Video Instruction Data Access in the ASP.NET 2.0 Framework will show you everything you need to know to start building database-driven web applications using the Microsoft ASP.NET 2.0 framework and the Microsoft Visual Studio 2005 development environment. Your instructor Stephen Walther honored by Microsoft as both an ASP.NET MVP and Software Legend guides you through building two fully functional, database-driven applications. Learn at your own pace with video lessons covering every main ASP.NET data access control: GridView, DetailsView, FormView, Repeater, DataList, and SqlDataSource. One step at a time, you'll learn how to build robust data access components, provide graceful error handling, handle user concurrency issues, and much more. Looking for a better way to master today's rapidly changing programming technologies? Want expert help, but don't have the time or energy to read a book? Can't find classroom training worth the money? Discover LiveLessons: self-paced, personal video instruction from the world's leading experts. LiveLessons are video courses, on DVD with a book supplement, that are organized into bite-sized, self-contained sessions you'll learn key skills in as little as fifteen minutes! Track your progress as you follow clearly defined learning objectives. Follow along as your instructor shows exactly how to get great results in your real-world environment. Professional author and instructor Stephen Walther provides an introduction to the core concepts of Data Access in the ASP.NET 2.0 Framework. Click play to follow along with Stephen as he explains the ins and outs of creating database-driven dynamic web applications in this LiveLesson. Workbook Introduction vii Module 1: Getting Familiar with the Visual Studio 2005 Development Environment 1 Module 2: Creating an Employee Directory

Application 7 Module 3: Using the
ASP.NET 2.0 Data Access Controls 17
Module 4: Advanced Topics 39 Module 5:
Creating a Guestbook Application 43
Bonus 1: An Introduction to SQL: The
Language of Databases 49 Bonus 2: An
Introduction to the Microsoft ASP.NET
Framework 71
