

DESTROY THE WALLS OF JERICHO. 49 PRAYER POINTS

A plan for conquering the land of Canaan with its fortified cities and giants was, of course, crucial, but God never leaves His people to their own strategies. He comes to their aid with His own divinely-provided plan. Indeed, we are repeatedly warned in Scripture against leaning on our own understanding or plans (Prov. 3:5-6; Jer. 9:23-24; 17:5). Undoubtedly, the strategy for invading the land was based on the geographical lay of the land. The pattern of divine strategy for the conquest of Canaan was based on geographic factors. From their camp at Gilgal near the Jordan River the Israelites could see steep hills to the west. Jericho controlled the way of ascent into these mountains, and Ai, another fortress, stood at the head of the ascent. If the Israelites were to capture the hill country they must certainly take Jericho and Ai. This would put them on top of the hill country and in control of the central ridge, having driven a wedge between the northern and southern sections of Canaan. Israel could then engage the armies of the south in battle followed by the more remote enemy in the north. But first, Jericho must fall and it would if Joshua and the people followed the Lord's plan of action.²⁸ Grab your Copy Now !
