

# Dyslexia Games - Art First - Series A Book 1 (Dyslexia Games Series A) (Volume 1)

Dyslexia Games Series A is a series of 6 Workbooks for ages 5-8 (for children having trouble consistently reading 3 letter words). Use our fun activity books to QUICKLY overcome reading confusion, messy handwriting, poor spelling, concentration problems, and letter reversals that are common to children with Dyslexia, ADHD, and Aspergers. Use all of the workbooks in order starting with Book 1. To purchase the 8 books in Series B together at a much lower price, visit [www.dyslexiagames.com](http://www.dyslexiagames.com) These mind training games are different from EVERYTHING you have ever tried because they focus on your child's TALENTS, not their weaknesses!

Dyslexia Games is a series of workbooks packed with learning activities that empower your child's brain with new abilities and new brain connections for literacy. Even older children who have been struggling for a long time can quickly build the mental skills needed to succeed in reading, writing and spelling! The games are so intuitive that kids will rarely need help from parents! This makes your job easy! Just use the books in order, and watch your child thrive! Before long he will be able to move on to normal schoolwork without the mental confusion caused by Dyslexia. With Dyslexia Games there is NO grueling memorization, NO flash cards, NO boring text books and NO endless repetition of the same dull facts! Just fun and games for 15 to 20 minutes a day! We consider your child's active mind and creative style to be a special gift, not a hindrance! That's why our worksheets are fun, interesting, and playful. Boys and girls both enjoy the games because animals are the main theme of the books. The pages include art games, pattern games and puzzles that require the child to tap into his natural problem solving skills and unique intelligence. Each workbook presents the

student with increasingly challenging activities, while introducing him to the complexities of the written language through simple word games and poetry. Dyslexia Games is the simplest, fastest, (and most affordable!) way to help your child to naturally overcome symptoms of Dyslexia, including letter reversals, poor spelling, messy handwriting, concentration problems, and reading confusion.
