

Kill Or Be Killed

In May 1998, in the small northern California town of Cottonwood, Norman Daniels, 28, opened a wax-sealed envelope given to him by friend Todd Garton, 27, who claimed to be a paid assassin for an elite organization called the Company. Now the Company was recruiting Daniels. His initiation would be to kill the person named inside the envelope: Carole Garton, 28 - Todd Garton's pregnant wife. On May 16, 1998, Daniels shot Carole Garton five times, killing her and her unborn child. But police launched an intense investigation that revealed the sordid story behind the murder. In a dramatic trial, the depths of Garton's depravity and Daniels' desperation would be revealed-and justice would finally be served.
