

The Economics of Money, Banking and Financial Markets

This market-leading text provides the most authoritative, applications-rich coverage of key concepts, models, and issues in money and banking. Frederic Mishkin previously held the post as Executive Vice President and Director of Research at the Federal Reserve Bank of New York. His writing style, latest research, and discussion of policy issues keep his text as the forefront of money and banking. The 7th edition update comprehensively brings the data in the text, figures, tables and boxes up to date through early 2005.
