

# Elizabite: Adventures of a Carnivorous Plant (Curious George)

Elizabite is a carnivorous plant who eats insects as appetizers and enjoys hot dogs for snacks. Whether it walks, talks, flies, or barks, Elizabite is ready to make a meal of it. In an effort to control her diet and her temper, the unpredictable plant is chained and muzzled! Only when her unique appetite prevents a crime does Elizabite win the respect she deserves. H. A. Rey (1898-1977) claimed never to have seen as spirited and hungry a plant as Elizabite, but he believed that a carnivorous plant of Elizabite's type and temper might be encountered somewhere, someday ... H. A. Rey and his wife, Margret, created the beloved Curious George. Another original and unforgettable H. A. Rey story is now packaged and recorded for a new generation of readers. The professionally narrated audio production includes lively sound effects and original music. Side one includes page-turn signals; side two features an uninterrupted reading.
