

Essays in the Art of Writing

Many budding writers wish they could have a few words with the authors of their favorite texts. In this series of essays, the author of literary classics like *Treasure Island* and *The Master of Ballantrae* offers the rare opportunity to learn from the successful writer of literary classics. With essays discussing his first published book, the morality of writing as a profession, and writing techniques, the only thing more interesting than Stevenson's analysis of writing is Stevenson's analysis of his own life. Learning about the writing process of an old literary staple is an opportunity for young authors that cannot be missed.
