

Threesome on the Patio: An FFM Menage a Trois Erotica Story

I was just sunbathing with my best friend when my co-worker David showed up. That would have just been normal if both of us weren't naked. That would have just made it awkward if Danielle hadn't decided to flirt with him. That would have just been a bit crazy and irritating if she hadn't told him to come closer. That would have just been none of my business if she hadn't suddenly kissed me. That would have just surprised me if David hadn't been watching.

That would have been all if I hadn't suddenly found myself lifting my hand and wiggling a finger at him to make him join us. That would have been well, that was actually all it took to make things spiral out of control. Warning: This ebook contains very explicit descriptions of sexual activity and includes FFM threesome, reluctant sex, lesbian seduction, first lesbian sex, and more. It is intended for mature adults who won't be offended by such content. Here is a preview: It was a completely surreal moment for me. I was kissing my best friend, my female best friend, in front of my co-worker, who was standing in my backyard, and I was naked. Oh, God! I was naked! I'd never been so uncomfortably aware of my body before. Her tongue probed at my lips, moving them apart, and I tasted the strawberry daiquiri she'd had earlier. I wanted to pull away. I tried to pull away. Her hand was wrapped tightly in my hair, though, pressed against my scalp, and it was clear to me that she didn't want it to stop. I struggled with her for a second more, and then I succumbed. With each passing moment, it wasn't so bad or so awkward. In fact, against my better judgment, I'd say I was starting to enjoy it. My eyes were still wide open, and I looked over her head at David. He'd taken a few steps forward when Danielle had beckoned him, but he had stopped in his tracks when her attention had turned from him to me. Her kiss deepened, and as I accepted her tongue fully in my mouth and dipped mine

into hers, I found myself mimicking her motion to him, inviting him over. The kiss was so different than I would have expected. It wasn't the same as a man's kiss at all; they were entirely two different specimens. This was a passionate, intimate kiss, like the type you see in romance movies, but there was a more explorative feeling to it too. It was as though the kiss was about experiencing me, rather than simply claiming me as a notch in her belt.
