

Scream: A Novel

While talking to his friend on the phone, Mark Stone is startled by a cacophony of otherworldly screams. Seconds later, a tragic accident claims his friend's life. When this happens several more times--screams followed by an untimely death--he is compelled to act. Battling his failure as a husband and struggling with his own damaged faith, Mark embarks on a mission to find the meaning behind the screams and hopefully stop death from calling on its next victim. When his estranged wife is kidnapped and he again hears the screams as she calls from her cell phone, his search becomes much more personal and much more urgent.
