

Flash Builder @ Work: Your First Information-Rich Application (Visualizing the Web)

You get Flex basics (MXML and ActionScript 3), some components (layout containers, buttons, text inputs), and some of the handy features included in the new Flash Builder (e.g., Data/Services tab). Your First Information-Rich Application is the first of five articles that will be compiled in the book, Data Visualization with Flash Builder: Designing RIA and AIR Applications with Remote Data Sources. Each full-color article illustrates specific aspects of Flash Builder data visualization with techniques to employ them. The book, Data Visualization with Flash Builder, features exclusive material in the form of a related real-world tutorial project to go alongside each article. This article is equivalent to 59 print pages.
