

Building Flash Web Sites For Dummies

You can get Flash-y with your Web site -- heres how! Know your audience, plan your site, and make it both interactive and cool. Gone are the days when you could get by with a boring Web site. With Flash, you can add interactivity, video, an exciting and easy-to-navigate interface, and eye candy like custom cursors and flying text. This friendly guide makes Flash fun and easy, so you can have your site up and running in no time. Discover how to *

- * Build an interface with custom buttons and menus
- * Include animation and soundtracks
- * Dress up your text
- * Create tween animations
- * Create ActionScript objects
- * Test and publish your site
