

Bimbofied: Three Transgender Tales

You love bimbos. Those dumb, curvy, sexy blondes. But what if you were transformed into one of them? Imagine helplessly watching yourself change, becoming beautiful and stupid, trapped as a bimbo. Imagine seeing your new body in the mirror. Imagine feeling a sudden and irresistible craving for the company of men. Imagine knowing that you can never go back to your old life. In Susan Donym's new short story collection *Bimbofied: Three Transgender Tales*, we watch as three arrogant, sexist men find themselves feminized, unwillingly transformed into gorgeous, ditzy girls. Donym describes their humiliating changes in such detail, it's as if you're experiencing the dark magic yourself. If you've ever had a secret desire to experience life as a bimbo, strap on your favorite pair of pink high heels and get ready for these three unforgettable tales of transgender transformation. Susan Donym is the author of such short story collections as *One Sip*, and *You're a Little Girl: 4 Short Tales of Transgender Age Regression*, *Unbirthing Stories: 5 Twisted Tales of Age Regression*, *Babyfied: 3 Age Regression Tales* and *He Became Her Twin: 6 Gender Change Fantasies*. This book contains situations and language some readers may find shocking or inappropriate.
