

IEC 60364-7-740 Ed. 1.0 b:2000, Electrical installations of buildings - Part 7-740: Requirements for special installations or locations - Temporary ... booths at fairgrounds, amusement parks and c

Specifies the minimum electrical installation requirements to facilitate the safe design, installation and operation of mobile, temporarily or permanently installed electrical machines and structures which incorporate electrical equipment. The machines and structures are intended to be installed repeatedly, without loss of safety, temporarily or permanently, at fairgrounds, amusement parks, circuses or any other places. Defines the electrical installation requirements for such structures and machines, both being either integral parts or constituting the total amusement device. Does not apply to the electrical equipment of machines (see IEC 60204-1).
