

# Happenstance

Brianna Trace is just a mature seventeen-year-old girl always trying to do the right thing. Brianna has many self-inflicted responsibilities; she must take care of her alcoholic mother, work as a waitress at her stepfather's restaurant, and play a motherly role towards her younger, much less mature sister. This home situation in itself creates its own problems, but they are nothing in comparison to the problems formed after a deadly mistake is made one late summer evening. After that tragic night, the line between right and wrong suddenly becomes blurred in Brianna's mind. How can Brianna do the right thing when she doesn't even know what the right thing is?
