For sled dog racing fans worldwide, the most important calendar day is the first Saturday in March, when teams convene for the start of mushings Superbowlthe Iditarod Trail Sled Dog Race. Every year, as it has since 1973, this ultimate challenge begins in the states most populated city, Anchorage, and then dives into the Alaska Bush on a historic trail that wends over mountain ranges, along frozen rivers, and onto the Bering Sea ice. The finish line lies 1,000-plus miles away in Nome, beneath a giant, burlled archway. There, dogs and their drivers are greeted by masses of locals, vacationing fans, officials, media, and other mushers who intimately know what that team has just endured. To simply finish is the goal for entrants; to win is the accomplishment of a rare few. Indeed, more people have climbed Mount Everest than have finished the Iditarod.
