

Short Order Macromedia Dreamweaver 3

Short Order Dreamweaver 3 teaches you Dreamweaver in a step-by-step progression of the complete Web site creation process. Presented in a comprehensive yet streamlined format, examples based on real-life projects cover all phases of site development and management. In building a basic Web page, you'll learn how to specify text and paragraph properties and insert images, hypertext links, and URLs. You'll also learn to create tables, frames and forms, use cascading style sheets, and work with behaviors, timelines, and libraries. Then move on to managing your Web site with Dreamweaver, using plugins, windows, palettes and inspectors. Find out what's new in version 3, and gain access online resources.
