

Century of Slaughter

Century of Slaughter is serial killer expert Mike Newtons behind the screams look at Americas murder epidemic. Newton spent over a decade sifting through evidence from police files, court records, psychiatric testimony and news reports. Using the case histories of more than 800 serial killers, he searched for patterns and the answers to some of societyA?A?s most terrifying questions: What turns innocent children into grown-up homicidal maniacs? Does violent pornography create sex slayers? What traits do serial killers look for in their victims? Is there any way to identify and treat predators before they start to hunt? Formerly published as Serial Slaughter, this updated edition gets behind the headlines and into the heads of serial killers. Century of Slaughter is the most detailed study of multiple murder ever published.
