

# Infants, Toddlers, and Caregivers: Responsive Care and Education

# A Curriculum of Respectful,

Combining a child-centered philosophy with problem-solving strategies, and a thorough discussion of diversity, *Infants, Toddlers, and Caregivers* serves as an ideal introduction to curriculum and care for infants and toddlers. The approach to caregiving that underlies the text is based on Magda Gerbers philosophy combined with a bold new approach to the extensive 62 years of research done by her late colleague, Emmi Pikler. Focusing on the concept of respect in child care, both pioneers based their curriculum around responding to each individual child's needs in a warm and sensitive manner. Stressing the need for physical and social growth through planned and unplanned learning exercises, Gerber and Pikler's approach to childcare aims to develop the mental, physical, and emotional progress of each child. In addition to the new approach to Pikler's research, the new edition features expanded discussions on race, natural environments and exercise for children. *Infants, Toddlers, and Caregivers* applies this approach in a practical and engaging way for students and faculty in introductory early childhood courses.
