

## Intuition, Cancer & Miracles

What if the journey through cancer became a spiritual pilgrimage the doorway to consciousness and renewal? In 2012, spiritual teacher and intuitive Sara Wiseman was diagnosed with melanoma, one of the deadliest forms of cancer. During two surgeries and the recovery that followed, she struggled with physical pain and fear. But Sara had extraordinary resources. Even before treatment started, she worked intensively to combine traditional medicine with the healing tools in her unique spiritual toolkit, including prayer, meditation, intuition, visualization, working with Divine guides, and sound healing. Miracles happened for Sara through the healing system she created, and today she is considered cured. Seven self-healing meditations are included: --Overcoming anxiety and fear--Tuning into the state of your body--Receiving healing from Divine guides and angels--Receiving support from departed loved ones--Healing your body at a cellular level--Shifting your vibration to gratitude and bliss--Surrendering to the miracle of your Divine nature

Intuition, Cancer & Miracles: A Passage of Hope & Healing shows a new way of thinking about cancer and spiritual healing, complete with the seven meditations for self-healing. This book is an extraordinary resource for anyone with cancer, and the partner, parent, or friend who provides support. A spiritual teacher and intuitive, Sara Wiseman (Oregon) has taught thousands of students how to have a direct connection with the Divine through her books, courses, and private sessions. She hosts the popular radio shows Ask Sara and Sanctuary, is a top contributor to DailyOM, and has released four healing music CDs with her band Martyrs of Sound.
