

## Janes Radar and Electronic Warfare Systems 2008-2009

Janes Radar and Electronic Warfare Systems is a comprehensive guide that covers the entire spectrum of surveillance, identification, targeting, control, intelligence gathering and self-protection systems across land, sea, air and space applications. Each entry is clearly presented for ease of comparison and evaluation. Specifications of each system include technical descriptions on the role, format, capabilities and status. Also included are contract, contractor and user details to support your procurement and market intelligence needs.
