

Johnny Voodoo

After their mother dies, her father packs up Deirdre and her brother and moves them from New York City to Charmette, a bayou town in Louisiana. At home, Deirdre is one of three strangers trying to recreate a family. At Charmette High, shes a Yankee wholl never fit in. Shes alone in a way shed never known before... until she meets Johnny. Hes so mysterious and so beautiful. People say hes dangerous, and that hes got special powers. All Deirdre knows is that when she and Johnny look at each other, theyre so close, theyre like one person. Johnny makes her feel like her true self. And he teaches Deirdre what true love is, and how long it can last.From the Paperback edition.
