

The Wisdom Speaks to Women: Astonishing Answers to Lifes Perplexing Questions (The Wisdom Words Series Book 1)

The Wisdom Speaks to Women is an overview of life from the Wisdoms multi-Dimensional viewpoint. It has real answers to real questions women are asking in their quest for understanding regarding health, relationships, motherhood, finances, divorce, new beginnings and spiritual growth in this wonderful but for lack of the female balancing energy aggressive world we live in. Since the beginning of mans recorded history, womankind has been searching for her identity by trying to find her place in an ever-changing, male hierarchy. This book brings forth the gift of the female energy, which is asking, begging, seeking, and hungry for information that is not steeped in anger, killing, and a quest for power. Our world desperately needs the balancing female energy to offset and stabilize its male counterpart and every woman knows that in her heart! Say Hello To Christina Rose And Joni Wilson: Two amazing, talented Women on a mission to share the Words of Wisdom given to them over the past 9 years, through loving, yet sometimes rather urgent, guidance. Reading through this book, the reader will find Christina asking the same questions all women have been asking for years and the insightful answers given by the Wisdom, through Joni, are like nothing short of amazing. You will find both Christina and Joni to be very normal women on an anything-but-normal search for TRUTH. Their first Close Encounter with The Wisdom (as explained in chapter one) did not happen at night in a backyard or in deserted field. It actually happened inside a house, and no, they did not physically bump into somebody appearing before them in a non-physical body. Actually, it was very under-stated for an event so powerful, enlightening and lasting. Over the past 9 years, they have shared over 130-channeled sessions with The Wisdom consortium of non-physical teachers who

have provided astonishing insights and clear answers to all of their questions like: 1. What is my true purpose in this life and am I fulfilling it? 2. What does Soul-mate really mean and does everyone have or need one? 3. Is there a bigger picture to life and death that I should be aware of? 4. Where is lifes Joy and how do I find true balance? 5 How can I eliminate fear and find freedom in my life. 6 Is there life after Motherhood? 7. Can I really heal myself? 8. Why do we age and why is it so undignified? You could liken this encounter to; Conversations With God meets Eat, Love. And Pray. Its funny, incredibly insightful, and spot on with its out-takes and in-takes. And to think, it all began with these eight powerful words ... I am here to introduce you to yourself. The Wisdom Speaks to Women: Session One Christina and Joni are excited to share the information they received with everyone who wants to expand their thinking beyond the limited concepts we are programed to accept. Their task is to share this Blueprint For Living in the hopes that all who find it exciting and helpful will in-turn share it with those in their lives who are open to changing old, tired beliefs. Their purpose in sharing this information is to create a healthful and bountiful human experience for the brothers and sisters, the children, and this Beautiful Planet. Is that even possible you ask? The answer is a big YES according to The Wisdom. So, Who or what is this Wisdom? In session 22 they answered: This wisdom is coming from, shall I say, the brothers and sisters that have reached and stepped beyond the human experience, and gently and lovingly reach back to pull those who have ears to hear, up into the higher experience.
