

# Macmillan Encyclopedia of Death and Dying

Covering all aspects of death and dying, the two-volume set also provides a deep historical and cross-cultural perspective through the ages. Article coverage includes: AIDS; children; cremation; communication with the dead; grief and mourning across cultures; life expectancy; widows; and much more. The Encyclopedia also includes 150 illustrations; an appendix providing general overviews and contact information for nearly 80 organizations; and a comprehensive index.
