

Microsoft® Windows® Administrators Automation Toolkit

Get the detailed guidance, tips, and tools you need to automate Windows system administration including 120 full working scripts with command-line controls on the CD! Windows automation expert Don Jones shows you how to run the scripts as written or customize them for your unique requirements. You'll learn how to reconfigure multiple services on a computer, shut down multiple remote computers, add users to Active Directory directory service, automate security configurations, work with Internet Information Services 6.0, and perform other key computer and network management tasks. You'll also explore advanced scripting tools. The CD features all 120 timesaving scripts, plus a bonus eBook to further your scripting expertise. A Note Regarding the CD or DVD The print version of this book ships with a CD or DVD. For those customers purchasing one of the digital formats in which this book is available, we are pleased to offer the CD/DVD content as a free download via O'Reilly Media's Digital Distribution services. To download this content, please visit O'Reilly's web site, search for the title of this book to find its catalog page, and click on the link below the cover image (Examples, Companion Content, or Practice Files). Note that while we provide as much of the media content as we are able via free download, we are sometimes limited by licensing restrictions. Please direct any questions or concerns to booktech@oreilly.com.
