

My Lost and Found Life

Ashley Mitchell thinks she has the perfect life: popularity, a hot boyfriend, and great fashion sense. But Ashley's world falls apart when her mother is accused of embezzling a million dollars, and no one can find her. Before she can say Dolce & Gabbana, Ashley's life goes from perfect to pathetic. With questions growing about her mother and her money quickly disappearing, Ashley is forced to make some drastic changes in her life. With nowhere else to go, she moves into an old camper behind a gas station and takes a job in a quirky San Francisco coffee shop where she wouldn't have been caught dead a month ago. But life at Mad Malcolms Cyber Cafe isn't what she expected. At the Madhouse she finds friends, confidence, and courage to start putting her life back together. But will Ashley ever have the chance to share her new life with her mother? This heartfelt coming-of-age story will resonate with every daughter who ever took her mother for granted, and every young woman who must step out on her own and not just survive, but thrive.
