

Mythic Astrology Applied: Personal Healing Through the Planets

Work and play with the mythic characters that populate your psyche. The gods and goddesses of the ancient world are still with us today. They act out in our celebrities, in the media, and most of all within ourselves, our dreams, and our own horoscopes. Through the planets in your chart you can fathom the mythic dimensions of your own life. The authors of Mythic Astrology provide a way to do just that in their new book, Mythic Astrology Applied. Learn how to contact, work with, and bring into harmony the planetary archetypes within yourself. This book might have you saying things like: Now I know why I married a Vesta but really long for a Venus as my partner, or Now I understand my relationship with my mother; she is a Demeter and I'm a Persephone.
