

The Lives of the Saints : March, Volume III (Illustrated)

The Lives of the Saints, which I have begun, is an undertaking, of whose difficulty few can have any idea. Let it be remembered, that there were Saints in every century, for eighteen hundred years; that their Acts are interwoven with the profane history of their times, and that the history, not of one nation only, but of almost every nation under the sun; that the records of these lives are sometimes fragmentary, sometimes mere hints to be culled out of secular history; that authentic records have sometimes suffered interpolation, and that some records are forgeries; that the profane history with which the lives of the Saints is mixed up is often dark and hard to be read; and then some idea may be formed of the difficulty of this undertaking. In writing the lives of the Saints, I have used my discretion, also, in relating only those miracles which are most remarkable, either for being fairly well authenticated, or for their intrinsic beauty or quaintness, or because they are often represented in art, and are therefore of interest to the arch?ologist. That errors in judgment, and historical inaccuracies, have crept into this volume, and may find their way into those that succeed, is, I fear, inevitable. All I can promise is, that I have used my best endeavours to be accurate, having had recourse to all such modern critical works as have been accessible to me, for the determining of dates, and the estimation of authorities.
