

Wargame Paintballs Field Owners Manual

#1 in sales of Air Sports books. NOW ALSO AVAILABLE IN PAPERBACK! Nigel Lacey has run Wargame Paintball, comprising a number of very busy and successful paintball sites over 27 years (1985-2012) in the UK, sometimes processing over 200 players a day, and running up to eight games simultaneously, within a single paintball complex. During more than a quarter of a century, spanning three decades of intense paintball operations, using techniques contained within this manual, Wargame Paintball prospered, and maintained a 100% safety record. No player, member of staff or bystander was ever seriously injured, during ANY paintball event, run by Nigel Lacey, and Wargame Paintball. Having experienced almost every conceivable paintball situation during this time, he has written this manual as a field owner beginners guide, with the novice paintball operator in mind. There are plenty of dangers and pitfalls in starting any new business venture, but this manual should give the potential site operator plenty to consider, and when they open, help make their initial few months flow smoothly.
