

Parachuting I-E Course

This specially-created exercise of home-study instruction will enable you to pass the difficult USPA I/E written examination. Like the exam, the Course is divided into sections with each concentrating on a specific area of parachuting. Each chapter has an introductory explanation to the lesson, reading assignments, sample questions and referenced detailed answers. The Course is recommended by the USPA and virtually every Instructor/Examiner has used it to pass the test.
