

# ISO 11418-2:2005, Containers and accessories for pharmaceutical preparations - Part 2: Screw-neck glass bottles for syrups

ISO 11418-2:2005 specifies the design, dimensions, material and requirements of screw-neck glass bottles for pharmaceutical preparations in liquid form (syrups). Screw-neck glass bottles are applicable to primary packs used in direct contact with a drug. ISO 11418-2:2005 is applicable to screw-neck glass bottles used in pharmacy. Together with the corresponding closure systems, they serve for packaging of pharmaceutical preparations which are not intended for parenteral use. This title may contain less than 24 pages of technical content.
