

National Building Standard Design Atlas (12G619-2): Housing seismic strengthening of buildings (2) (medical building seismic reinforcement)(Chinese Edition)

Paperback. Pub Date: 2012 Jun Pages: 109
Language: English Publisher: China Planning Press National Building Standard Design Atlas (12G619-2): Housing seismic strengthening of buildings (2) (medical Seismic reinforcement) National Building Standard Design Atlas applies to the areas of seismic intensity 6 to 8 degrees after seismic qualification required seismic reinforcement of existing masonry structures. multi-storey frame structure. multi-layer framework of a shear wall structure in the form of medical buildings (such as large in the citys two hospital outpatient department. inpatient and medical technology building. the 6.7 degrees township medical building) seismic reinforcement. The book includes: Seismic expert conclusions medical building masonry structure reinforcement plan and detailing frame structure Seismic expert conclusions. reinforcement plans and details. t...
