

Lengthening Shadows (A Tale of The Coming Evil Trilogy)

The Resistance Has Begun. Rebellion is in the air as the demonic visitor known as The Strange Man begins his takeover of Greensboro. Promising prosperity and hiding his true identity, the creature adopts the name John Graves and makes himself at home in his position as the towns new mayor. It is a time of sedition as former pastor Jeff Weldon and a small band of faithful warriors plot to overthrow the hellish regime. By day, they carry on in their quiet lives, but at night they venture into haunted Greensboro on dangerous missions. A war is brewing in the towns shadows as even the remnants of the Committee the original conspirators who helped pave the way for the Strange Mans arrival now plot to betray him, hiring a group of hardened mercenaries to kill the monster once and for all. In the middle of the conflict is Annie Myers, still reeling from the grim fate that befell her older sister Rosalyn. Annies blossoming faith is put to the test as she encounters a new and fearsome monster on the outskirts of Greensboro who is taking control of the skies. As the Dark Hour draws nigh and the shadows lengthen, it becomes all the harder to determine who is friend and who is foe, and if anyone will survive the battle to come. Lengthening Shadows, an original e-novella, serves as the bridge between Enemies of the Cross and Dark Hour, Books Two and Three of The Coming Evil Trilogy.
