Linda got promoted a few months ago, and despite her work life getting better, her personal life is a shambles. Unable to find a hot, articulate guy despite her lush body, the hot blonde gets increasingly distracted by her older, attractive Asian boss. Even though the older woman is married, Lindas afternoon sex chatting online emboldens her to make a move. Sparks fly between the two women at work, leading to a scorching climax as the hot, younger woman copies her chat session with her married boss. A ten thousand word story of lesbian sex, strap-on anal and fingering between two women. Special bonus: Included are excerpts from six of my other lesbian stories, as well as my two hetero stories. Also, the first four chapters of my novel, His Wifes Secret.
